

States settlement lands shall be subject to assessment by a district on the same basis as other lands of like character within the operation of the district.

(c) Settlement lands, which the United States is not under contract to sell or exchange at the time a district makes its levy may be assessed by a district to the extent of the construction charge obligation installment required to be levied for the following year on such lands on account of the district's construction cost obligation to the United States. No other levies shall be made by a district against settlement lands in this status.

(d) While settlement lands which the United States has leased for use as irrigated lands and which the United States has not contracted to sell or exchange may not be assessed by a district except as provided in paragraph (c) of this section, lessees shall pay the district the same amounts annually that would be required to be paid for water service if the lands were subject to assessment therefor, in addition to any assessment levied under paragraph (c) of this section.

(e) Assessments made by a district against settlement lands while the United States is under contract to sell or exchange such lands shall be subject to all interest and penalties for delinquency as provided by the laws of Washington, but interest and penalties shall cease to accumulate on the date such contract is terminated or the purchaser's interest therein reacquired by the United States.

(f) No action shall be taken by or for a district to enforce any lien created as permitted under the regulations in this part by assessment foreclosure or other means that would purport to transfer any right in or title to any land or interests therein while title thereto is vested in the United States. Although the United States does not assume any obligation for the payment of such liens, it will in any conveyance of settlement lands covered thereby convey subject to those liens.

#### **§ 413.4 Assessment of other project act lands and rights of way.**

(a) A district shall, as to other project act lands and rights of way the

title to which passes to the United States on or after January 1 of any year and before the district has levied its assessments for that year, immediately remove the lands from its assessment rolls and shall not thereafter take any proceedings to complete or enforce the assessments. Any such removal from the rolls shall be effective as of January 1 of the year in which title passes to the United States. Action so to remove shall be taken promptly after the giving of written notice by the Project Manager to the district as to the lands involved, and the district shall provide the United States with a certificate stating that the lands have not been and will not be assessed so long as title thereto remains in the United States.

(b) There is no authority in law for the assessment of rights of way owned by the United States. Accordingly, a district shall make no assessment thereof while title thereto remains in the United States.

(c) Other project act lands while title thereto remains in the United States shall not be assessed for any district charge so long as they are in the "other project act lands" category.

#### **§ 413.5 Reports on status of settlement lands.**

The Project Manager will furnish each district prior to its annual levy every year a list of all the settlement lands owned by the United States for which water is available and which are not under contract of sale or exchange and therefore are not to be assessed by the district, except for construction charge obligation installments under § 413.3(c) when such charges are required to be levied.

### **PART 414—OFFSTREAM STORAGE OF COLORADO RIVER WATER AND DEVELOPMENT AND RELEASE OF INTENTIONALLY CREATED UNUSED APPORTIONMENT IN THE LOWER DIVISION STATES**

#### **Subpart A—Purposes and Definitions**

##### **Sec.**

414.1 Purpose.

414.2 Definitions of terms used in this part.

## § 414.1

### SUBPART B—STORAGE AND INTERSTATE RELEASE AGREEMENTS

414.3 Storage and Interstate Release Agreements.

414.4 Reporting Requirements and accounting under storage and interstate release agreements.

### Subpart C—Water Quality and Environmental Compliance

414.5 Water Quality.

414.6 Environmental Compliance and funding of Federal costs.

AUTHORITY: 5 U.S.C. 553; 43 U.S.C. 391, 485 and 617; 373 U.S. 546; 376 U.S. 340.

SOURCE: 64 FR 59006, Nov. 1, 1999, unless otherwise noted.

### Subpart A—Purposes and Definitions

#### § 414.1 Purpose.

(a) *What this part does.* This part establishes a procedural framework for the Secretary of the Interior (Secretary) to follow in considering, participating in, and administering Storage and Interstate Release Agreements in the Lower Division States (Arizona, California, and Nevada) that would:

(1) Permit State-authorized entities to store Colorado River water offstream;

(2) Permit State-authorized entities to develop intentionally created unused apportionment (ICUA);

(3) Permit State-authorized entities to make ICUA available to the Secretary for release for use in another Lower Division State. This release may only take place in accordance with the Secretary's obligations under Federal law and may occur in either the year of storage or in years subsequent to storage; and

(4) Allow only voluntary interstate water transactions. These water transactions can help to satisfy regional water demands by increasing the efficiency, flexibility, and certainty in Colorado River management in accordance with the Secretary's authority under Article II (B) (6) of the Decree entered March 9, 1964 (376 U.S. 340) in the case of *Arizona v. California*, (373 U.S. 546) (1963), as supplemented and amended.

(b) *What this part does not do.* This part does not:

## 43 CFR, Subtitle B, Ch. I (10–1–08 Edition)

(1) Affect any Colorado River water entitlement holder's right to use its full water entitlement;

(2) Address or preclude independent actions by the Secretary regarding Tribal storage and water transfer activities;

(3) Change or expand existing authorities under the body of law known as the "Law of the River";

(4) Change the apportionments made for use within individual States;

(5) Address intrastate storage or intrastate distribution of water;

(6) Preclude a Storing State from storing some of its unused apportionment in another Lower Division State if consistent with applicable State law; or

(7) Authorize any specific activities; the rule provides a framework only.

#### § 414.2 Definitions of terms used in this part.

*Authorized entity* means:

(1) An entity in a Storing State which is expressly authorized pursuant to the laws of that State to enter into Storage and Interstate Release Agreements and develop ICUA ("storing entity"); or

(2) An entity in a Consuming State which has authority under the laws of that State to enter into Storage and Interstate Release Agreements and acquire the right to use ICUA ("consuming entity").

*Basic apportionment* means the Colorado River water apportioned for use within each Lower Division State when sufficient water is available for release, as determined by the Secretary of the Interior, to satisfy 7.5 million acre-feet (maf) of annual consumptive use in the Lower Division States. The United States Supreme Court, in *Arizona v. California*, confirmed that the annual basic apportionment for the Lower Division States is 2.8 maf of consumptive use in the State of Arizona, 4.4 maf of consumptive use in the State of California, and 0.3 maf of consumptive use in the State of Nevada.

*BCPA* means the Boulder Canyon Project Act, authorized by the Act of Congress of December 21, 1928 (45 Stat. 1057).

*Colorado River Basin* means all of the drainage area of the Colorado River
